## SLASHES POCKETS DOES THIS THIEF

Was Operating on Broadway Saturday Night.

William Little Finds Aperture Just Over Loose Change—Feels Knife.

## POLICE HAVE NEW PROBLEM.

One of the most dangerous and desperate type of criminal has made his appearance in Paducah, the first operation or attempted operation being reported Saturday night. He is the "pocket cutter" and operates in crowds. Saturday evening William Little, employed in the Illinois Central shops, was standing near Fourth street on Broadway. He felt some one brush against him and a queer tugging at his right hand trousers pocket. He thrust his hand to his side just in time to feel a hand go after his pocket.

An examination showed the cloth to have been cut several inches but not deep enough to cut the lining of the pocket. He had some silver money in that pocket and this was what the thief was after.

There have been chicken thieves, harness thieves, purse snatchers and thieves of all classes, but this is the latest to break loose in Paducah.

## Commission House Entered.

The H. P. Hawkins & Sons wholesale commission house was entered Sunday through a rear window and a box of cigars taken. This is all that was missed. The firm handles few articles that can be carried away, which probably accounts for the cigars alone being missed.

## After Bicycle Thief.

The police are investigating the theft of a bicycle belonging to J. C. Farley which was stolen from the

front of the store on the South Side several weeks ago. The bicycle was found in the Ingram repairing shops on Jefferson street. It was sold to Ingram some time ago, but the name of the person who sold it is unknown. Ingram has given the policeman a description of the negro boy from whom he purchased it.

## Held Up and Robbed.

Houston Wilkerson, a well known young man of Rowlandtown, was robbed Saturday night about 10 o'clock in that suburb of the city of all his money, amounting to about \$10. Two negroes did the work. They held him up and went through him, one making the search while the other held the pistol. Wilkerson was unable to do anything, but reported the robbery to the police as soon as he got to a telephone. He will be able to identify the negroes if he sees them again.

## The Soul Is Not Immortal.

The following are the principal thoughts presented at the Adventist tent by W. S. Lowry: Most professed Christians think they have something in their organization that is immortal. In sermons and prayers are constantly used such expressions as "immortal souls," "never dying souls" and similar terms, although in the Bible from Genesis to Revelations, we cannot find the expression "immortal soul." The apostle Paul is the only writer in the whole Bible who makes use of the word "immortal" or "immortality." He never applies it to either sinner or saint in this world. He never applies it to men's souls at all, either before or after death.

Immortality is obtained by a full acceptance of the plan of salvation, for "God so loved the world, that he gave his only begotten son, that whosoever believeth on Him should not perish, but have everlasting life."

—The New Richmond House entertained last week over 300 transient guests.

Twenty-three months ago yesterday, since I opened the New Richmond, I have entertained 20,283 guests so you can plainly see which hotel is doing the business. Respectfully

BUD DALE.

## PADUCAH WAS FULL OF PEOPLE SUNDAY

Cowling and Railroads Bring Hundreds to City.

Chief Collins Puts Ice Water on Broadway and Supplies Long Felt Want.

## PARK CROWDED ALL DAY LONG.

Four excursions, two by rail and two by river filled Paducah with visitors yesterday and the streets, street cars and all down town soda water dispensaries were filled with people in gay attire all day long.

The railroads brought in 1,500 visitors and several hundred came in from Metropolis by river. The Chautauqua, Odd Fellows memorial services and the attractions of a cool park with band concerts drew hundreds out of the city and it was a banner day in the history of the city for visitors, crowded streets and general activity.

The Cowling brought in about 500 people from Metropolis and way points, and the service furnished was excellent. Two excursions from Illinois served to pour 1,500 visitors into Paducah and these with the regular Sunday crowds of Paducahans made the city resemble a metropolis.

The first excursion train came at 1 o'clock via Cairo. It was made up of eight coaches and a baggage car and brought in 750 visitors. The second came via Brookport and brought in 500. Nearly 500 visitors had to walk from the depot because of the fact that the traction company did not have the facilities of quick transit to the city.

The first excursion came from Eldorado, Ill., and the second from Johnson City.

There were several hundred visitors from neighboring towns and a livelier

Sunday was never experienced before.

## Thirst Appeased.

Through the efforts of James Collins, chief of police, and Capt. Dick Howard, the thirst of the hundreds of visitors was appeased. A barrel of ice water was placed at Second street and Broadway and two big jars were stationed further up in town. Children and even elders begged for water and this moved the chief to action. Capt. Howard stationed a man at each barrel to see that they were kept filled.

## At the Park.

Wallace park ran a close race to a record crowd. There was no ball game and the attraction Sunday was the Chautauqua and the band concert at the park. Wallace park was filled from early afternoon until late at night and the free show proved a big attraction, the theater being filled to overflowing.

## SOAP SUDS

Turned Out to Be Beer Foam, But It Served.

Moore Whittaker, formerly proprietor of the I. C. depot lunch stand, is an appreciative joker. He is known for his humor among the traveling men and always has a "new one" to tell. His latest is: "I have heard of people bathing in wine and doing that sort of thing to show how little they care for money," he stated, "but Saturday I saw the real thing happen only it was beer and not wine that was used. I was on watch in Quarles' saloon and was busy with my book making entries of several cases and kegs of beer. One half barrel had run out and the empty barrel was still in the ice box. A farmer entered the saloon and asked for a place to wash his face. I told him to go to the rear. He walked back to the beer faucet and the next thing I knew was trying to wash his hands and face with beer. The barrel was empty and nothing but foam came out. Here," he cried "it's soap suds, ain't it?" and this called my attention to him. He had beer foam all over his face and hands."

## IN THE COURTS

### After Judge's Opinion.

E. W. Bagby, referee in bankruptcy, has written to Covington Ky., to secure a decision of Judge Walter Evans in a case similar to that which he now has under consideration, and his opinion may be modified by that of Judge Evans. The Paducah Water company wants to have priority over other creditors in the H. T. Hessig case for a water bill alleging that water is a material and the company should be given a mechanic's lien. The question to decide is if the company can be given a mechanic's lien without having gone through due process of law. The law reads that liens shall be filed 60 days after the material is furnished, and it is alleged that the company has never filed a lien. The opinion of Judge Evans has never been reported in the law reporter, but it is on record in Covington.

### Order of Sale.

An order of sale was made in the case of John S. Summers against Arthur A. Peck this morning by Circuit Judge William Reed. Summers filed suit against Peck to settle their partnership in marine business, and asked for an injunction restraining Peck from interfering with the business of the firm until it can be settled in court. The petition also asked for the appointment of a receiver and Cecil Reed was appointed to that office. This morning the temporary injunction against Peck was extended until the suit can be settled in court and the order of sale of the steamer Henrietta with all barges and marine property of the firm made. The sale will be held by Cecil Reed, receiver, on July 9.

### WILL REMAIN HERE.

Supt. C. M. Lieb Will Not Attend Chicago University.

Supt. C. M. Lieb, of the city schools, has decided to remain in Paducah during the summer giving up the plan of a course in a Chicago or New York university. Supt. Lieb has been ill and on account of the illness had to give up attending two state educational

meetings. He is slowly improving but not yet himself. His illness pulled him down nearly 15 pounds and he does not consider himself fit to go through a summer course in college.

Supt. Lieb is a hard and constant worker in the cause of education, and while he will not take any special course this summer, will devote his time to the study of educational work and will figure out his plan of work for the next season. Supt. Lieb has done more for the Paducah schools during his incumbency than any other superintendent the schools have ever had. He does not take credit for it, but the campaign mapped out by him has been followed closely, the schools have been bettered, the work of the pupils and teachers more satisfactory and the improvement can be noticed in many ways.

### SPREADING ADDERS

Encountered and Killed in Mayfield Creek Bottoms.

Three spreading adders were killed in the Mayfield creek bottoms Sunday by John Vickery, John Strout, Jack Probus and Charles Grate. Mr. Stroud came near being bitten by one. The gentlemen are employed in the Illinois Central wood working shops and had gone out to hunt squirrels. They ran upon the first snake before they were aware they were in danger. The reptile was in the act of springing on Stroud when a well directed blow with the rifle prevented its leaving the ground. Its head was battered in.

Later in the afternoon two snakes of the same type were killed. They were large snakes and the sportsmen say the bottoms seemed filled with them.

### A MODERN HOME FOR SALE.

Six rooms, bath, furnace, hardwood floors, up-to-date in every particular. Apply on premises at 416 North Fifth street.

"Do you expect to raise any hay this year?"

"Not much," answered Mr. Cornsattel. "Only just enough to make the place look like a farm so's to satisfy the feelin's of the summer boarders."—Washington Star.
